SOUTHWESTERN KANSAS.

The Great Farming Country.

BRISTOL, TENN., Jan. 29, 1878.

Editor of the Bristol News :

This country was opened up some three years ago by the Atchison, To-The atmosphere is very dry and pure sides. The sheep are doing well and and entirely free from malaria, a great bugbear to mountainers going west.

So, we should only make different Democratic Congressmen from the charges of party infidelity, and said: Water-there is an abundance of nev- Any information wanted in relation er-failing pure water, numerous to this new country can be readily obstreams, in the absence of which it is tained by writing to Mr. John L. only necessary to dig from 5 to 25 feet Truslow, of Chattanooga, East Tenn. below the surface to find an inexhaustible supply, which does not vary in depth, wet or dry. The banks of the Arkaneas river are not over two or three feet high in many places, and the supply in three feet high in many places, and the supply in three feet high in many places, and the supply in t never overflow. The soil is a sandy loam of great depth and fertility, producing abundant crops of everything grown in this latitude, except tame grasses, which have not yet been tested sufficiently to know what can be of the Finance Committee of the house doue, but the small sowings have on the amount of the State debt .- yielded well. The soil has all the requirements claimed for Alfalfa and to the two Auditors, and its accuracy what little has been sown has done endersed by them. The Second Audwell. If too much is not claimed for liter subsequently made another state. President of the United States pendit in California, and it can be success- ment, relating to war-interest-but fully grown through the first two sea- not effecting the result. sons here, then the sub irrigation of It is no wonder the Funders were

The production of wheat seems to be a specialty, and magnificent crops terest on the total debt is \$2,453,716, sixteen to twenty and thirty bushels per agre, depending upon the skill used la preparing and seeding the lations.

Hero the farmer can use all kinds of inher-saving machinery, the Header even finding employment in the har-sest fields on account of the dryness interest-West Virginia of Sepof the atmosphere; a fact which Californithe have so long boasted of as being peculiar to the Pacific Coast,

It might not be out of the way to mention Mr. T. C. Henry's experience Annual interest on the principal of the debt of \$23,326,826,38 at 6 and to wheat raising, as stated by himself.
He does not claim to be practical farmer, but had twelve hundred acres of prairie broken, stirred, sown, harvest-sinking fund... in wheat raising, as stated by himself. prairie broken, stirred, sown, harvest-ed, threshed and delivered in market by contract, realizing twenty-two and one half bushels per acre, and sold at the debt of \$55,821,333 53 at 6 and the debt of \$55,821,333 53 at 6 and all expenses incurred he had the snug little sum of \$18,894,90 left. Quite a sesson from twelve to twenty-five hundred bushels off of from fifty to one hundred agree condition for the past one hundred series condition for the past of the debt, \$11,220,752.75 at 6 and 5 per condition for the past of the debt, \$11,220,752.75 at one hundred acres seeding. Barley, Oats, Ruckwheat, Rye, Flax, Castor-

Beans, all produce abundant crops. I saw a sample of oats raised at Larned, which was claimed to have yielded one hundred bushels per acre. Flax seed is furnished the planter and contracts made with them for the crop of seed if desired. Corn yields well, the sod crop last season producing from fifteen to twenty bushels per acre.-This crop, as all western men know. has no cultivation whatever.

MANNER OF SETTLING AND LIVING. Lands can be had of the Railroad Company at from two to eight dellars per acre, depending upon its proximity to cities and towns; and there is still government lands, outside of Railroad limits, subject to homesteads, &c. Immigration at present is immense, coming by rail and overland, bringing, generally, their household goods, stocks, &c. Those who have pedact insolvent capitation and the means, build frame buildings; properly and delinquent land-tax others more needy are satisfied with "Kausas brick," or a sod house, if you | neduct current expenses of governplease. And even these can be made very comfortable by being plastered and coaled; and I saw them carpeted, Deduct amount due public free although having no floor but mother earth. Emigration from the States east of this is now being rapidly de-veloped, and practical farmers of means are coming there and building large houses and barns, painting them off, and moving things as western men are wont to do. The man who serious, Opposition from goes there and expects to live without neighbors will find himself very much mistaken. These are a progressive people, building fine public building which surpass anything we have. No man need fear he will be that the preliminaries of peace that the preliminaries of peace that the preliminaries of peace this as well as other public enterprises, which are developed to such an expectate the proposed of the public enterprises, which are developed to such an expectate the proposed of the public enterprises, and would reach Adrianople to the proposed of the public enterprises, and would reach Adrianople to the proposed of the public enterprises, and would reach Adrianople to the proposed of the public enterprises, and would reach Adrianople to the proposed of the public enterprises, and would reach Adrianople to the public enterprises, and would reach Adrianople to the proposed of the public enterprises, and would reach Adrianople to the public enterprises, and would reach Adrianople to the public enterprises, and would reach Adrianople to the public enterprises, and the proposed of the public enterprises, and would reach Adrianople to the public enterprises and the great trump kerds: making the public enterprises and the proposed of the proposed of the proposed of the public enterprises and the proposed of the publi

PROW THE PROFFIC JOURNAL.
"A CREAT DEVENTION has been made by DR. POTE, of New York,

fillE undersigned having gone into a co-1 partnership with Messrs, A. L. COHfirm will be Doriot & Co. We have brought to this place all the latest and most approved appliances for extra-fine watch making and repairing, together with the best talent and shill in the American, French, and Swiss improvements. Mr. Cornibert ranks with the first Watch Mak We flatter ourselves that we can do watch work better than the best of other shops throughout the country. All damaged parts of watches will be taken out and re-

in New York City.
